## KEY SKILLS

- HTML
- CSS
- JAVASCRIPT
- BOOTSTRAP
- C

- JAVA
- PYTHON
- GIT & GITHUB
- MYSQL
- SQLITE

## HOBBIES

- INTERNET SUFRING
- WRITING
- TRAVELLING

## LANGUAGES

- GUJARATI
- HINDI
- ENGLISH

## CERTIFICATIONS

- Java developer :- https://www.sololearn.com/certificates/CC-RFVLGXQ0

# PROJECTS

- ## BUS BOOKING SYSTEM

  A Python-based Bus Reservation System using Tkinter for the GUI and SQLite as the database. This project allows users to search for routes, view bus details, book seats, and manage bookings through an admin panel.

  https://github.com/vishalrathod2/Bus-Booking

- ## ECOMMERCE

  The E-Commerce Footwear Website is a PHP-based web application designed to offer a smooth and responsive online shopping experience specifically for footwear products. This platform allows users to browse a wide range of shoes, view detailed product information, manage shopping carts, and complete purchases with ease. Developed using core PHP (or optionally with frameworks like Laravel), along with HTML, CSS, JavaScript, and MySQL, this project demonstrates the essential components of a real world online store. It features dynamic product listings, user authentication, admin product management, order processing, and more. This website serves as an ideal foundation for anyone looking to understand or build an e commerce system using PHP, whether for academic, portfolio, or startup purposes.
